

Modular Tool Changer

The most flexible automation for fast and precise tool changing

Customer benefits

- Save time and increase the bending quality thanks to the automated changing of upper and lower tools
- Precise and wear-free positioning of the tool sets in the clamping systems of the upper and lower beam
- Efficient set-up and removal of tool segments up to 515 millimeters in length
- Simple tool expansion at any time: An intelligent sensor system automatically detects new tools and integrates them into the tool magazine
- Automatic rotation of the upper tools increases the variety of bending applications
- Maximum application diversity in the thin and thick sheet metal range thanks to the possibility to use lower tools up to V120 and upper tools with a height of up to 350 millimeters
- Precise and gentle processing of bent parts thanks to automatic cleaning of the bending table
- Modular design enables Xpert Pro series press brakes to be upgraded
